OBJECTIVE

Software Engineer with 2+ years of experience developing scalable web applications using React.js and Node.js. Strong in Data Structures & Algorithms, REST APIs, and performance optimization, with a focus on building efficient and maintainable systems.

EDUCATION

Netaji Subhas Institute of Technology (NSUT, DELHI)

Bachelor of Engineering (B.E.) in Computer Science

Dwarka, Delhi, India

AUG 2017 - SEP 2021

TECHNICAL SKILLS

Languages:	C, C++, Python, SQL, JavaScript
Front-End Stack:	React.js, Next.js, AngularJS, Redux Toolkit, React Hook Form, HTML, CSS, Context API
Back-End Stack:	Node.js, Express.js, REST APIs, Firebase, Socket.io
Database:	MySQL, MongoDB
Frameworks / Libraries:	Pandas, NumPy, Bootstrap, Material-UI (MUI), Tailwind CSS, Figma
Platforms / Testing:	Git, Docker, Webpack, Vercel, VS Code, PyCharm, React Testing Library, Chrome DevTools
Relevant Coursework:	Algorithms, OOP, SDLC.

WORK EXPERIENCE

Software Engineer

AMUS SOFT

FEB 2023 - AUG 2025

Worked on the development of a web application using React and AWS, resulting in a 20% increase in user engagement. Implemented responsive designs and collaborated with clients to gather requirements and provide technical solutions.

- Developed new features and enhanced applications using React and AWS.
- Implemented responsive designs resulting in a 15% increase in traffic.
- Optimized database queries, resulting in a 40% reduction in downtime.
- Project: Amus Hiring [Link](#)

PROJECTS

Real-Time Chat Application || [LINK](#)

AUG 2025 - OCT 2025

- Built a full-stack real-time chat application using React.js, Node.js, and Socket.io for low-latency one-to-one messaging.
- Implemented secure user authentication and encrypted data storage using MongoDB.
- Designed a responsive UI and developed scalable REST APIs with Express.js for efficient performance.

NEWS APP || [LINK](#)

NOV 2022 - DEC 2022

- Built a low-latency application using React.js and APIs.
- Developed a news application that fetches global and category-specific news using APIs.
- Tools: React.js, Bootstrap, News API.

RAILWAY DATABASE MANAGEMENT SYSTEM || [LINK](#)

Team Size-4

- Built an application using HTML, CSS, JavaScript, and SQL for database maintenance.
- Reduced manual errors in ticket booking and cancellation, improving convenience for customers.
- Managed customer data and seat availability efficiently.

CHAT BOT COLLEGE ENQUIRY || [LINK](#)

Team Size-3

- Developed a web-based chatbot to provide instant responses to common college-related queries, improving user accessibility and experience.
- Integrated natural language processing using OpenNLP to understand user input and deliver relevant information efficiently.
- Built the frontend using HTML and CSS, ensuring a simple, responsive, and user-friendly interface.

ACHIEVEMENTS

• JEE Main 2017

Ranked in the top 5% among 1.2M+ candidates, demonstrating strong analytical and problem-solving skills.
